Take the matter of intermediate sizes, for instance. Sizes are designed and standardized for every age. Never a model "cut down or added on" to make an intermediate size.

And this same thoroughness is evident throughout-from the things for the little ones of 3½, to the young woman of 17-and for those awkward ages around 13. 14 and 15.

Our long experience, and the experience of our buyers, mean much to the young people in your familyas you will find out when you come to Best's.
